

AZEDRA Service Connection[®] Patient Services

AZEDRA Service Connection[®] is a program designed to provide support to patients during their treatment with AZEDRA. Progenics Pharmaceuticals, Inc. offers:

Insurance Support

Progenics will assist patients and their physicians in understanding patients' insurance coverage and options to access AZEDRA, including:

- Verifying a patient's insurance benefits and providing information on the prior authorization process, if required
- Working with physicians to answer reimbursement questions and providing information on the appeals process should coverage for AZEDRA be denied

Travel Support*

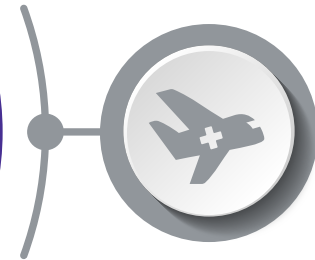

- Progenics may provide assistance with the costs of traveling to a treatment facility for AZEDRA for the commercially insured

*Travel support for patients is subject to eligibility requirements.

Financial Services

- Progenics may also help patients gain access to AZEDRA who may have challenges affording certain out-of-pocket costs
- For the insured: assistance identifying copay, coinsurance, and deductible support
- For the uninsured: patient assistance, which may include providing AZEDRA at no cost to patients who meet program eligibility requirements

Coordination with Progenics Pharmaceuticals, Inc. (the makers of AZEDRA)

- Responding to medical information requests
- Collecting information on adverse events

To find out additional details, and if you may qualify for any of these services, contact the AZEDRA Service Connection[®]
